HackerYou College of Technology  
2017

*Intro/Advanced Web Development*

HackerYou College of Technology  
2017

*Bachelor of Arts, Philosophy*

University of Guelph  
2006 - 2010

## About

I'm a web developer based in Montreal. I'm always looking to work on projects that approach the web with innovative perspectives, design and efficiency. I am constantly fascinated with the power and capabilities of JavaScript.

## Experience

### Web Development Instructor

*Concordia Bootcamps*

*(February 2022 - Present)*

Teaching web development skills and best practices in JavaScript, React, MongoDB, Express and Node to prepare students for success in the tech industry.

### Web Developer

*Points (June 2018 - March 2020)*

Developed dynamic landing pages with React for United Airlines, Southwest Airlines, Hilton Hotels and more. Worked alongside data science and machine learning experts to create web experiences customized for each unique member.

### Web Developer (Contract)

*G Adventures (October 2017 - June 2018)*

Worked on 2018 National Geographic Journeys promotional and informational campaigns. Developed responsive design, applied new stylings and layout and updated content.

### E-Commerce Developer & Manager

*Faith / Void (2016 - 2017)*

Developed and established an effective e-commerce environment with Shopify Liquid for a niche consumer base. Developed a cost-efficient international shipping system based on region.
